	SILDoulos IPA93*	
	SILDoulosIPA*	
	SILManuscript IPA93*	
	SILManuscriptIPA*	
	SILSophia IPA93*	
	SILSophia IPA93*	
	SILSophialIPA*	

*The SIL phonetic fonts are only supported if you have licensed the eXtyles Phonetic Fonts Pack.

The following table lists fonts that are not yet supported by eXtyle. This table is not all-inclusive – it is merely a table of those special character fonts of which we are aware, but we have not built tables to support them.

Unsupported Fonts		
Math Fonts	Phonetic Fonts	Other Special Character Fonts
Euclid	IPAKiel	Bookshelf Symbol (and variants such as Bookshelf Symbol 1)
Euclid Extra	IPARoman	Dingbats
Euclid Fraktur	IPAPhon	MS Reference Specialty
Euclid Math One	Phonetics	Webdings
Euclid Math Two	TechPhonetic	WP Arabic
Euclid Symbol	Times PhoneticAlternate	WP Hebrew
Math1	Times PhoneticIPA	WP Japanese
Math1Mono	WP Phonetic

Note that in some cases, you will see “????” as the name of a font. This usually happens when an author has used MS Mincho or PmingLiU, and Font Audit has been run on a Windows 95, 98, or ME system. You should be alert for special character problems in this situation, but usually none are reported.
