

# eXtyles Cloud Strategy

Bill Fox  
Director of Software Development

# We have been in the cloud!

## Edifix since 2014

The screenshot displays the Edifix web application interface. At the top, there is a navigation bar with the Edifix logo, links for Features, Solutions, Pricing, Resources, About, and Contact Us, and buttons for Account and + New Edifix Job. A notification banner at the top reads: "Привет William! Your trial includes 100 more references. Want more? Visit our upgrade page to sign up!". The main content area is divided into two columns. The left column contains a "Job Name" field with "Untitled Job 1", an "Editorial Style" dropdown menu, and a "Reference Validation and Correction" section with three checked options: "PubMed Correction and PMID Linking", "Crossref Correction and DOI Linking", and "Cabells Reference Checking". Below these is an "Advanced Settings" section with a "Save settings as defaults" option. A large "Edifix Your References" button is at the bottom of the left column. The right column is titled "Paste your reference list here" and contains a large text area with a placeholder "[source]". A "View Sample References" link is located at the bottom right of the right column.

**Upload a Microsoft Word document**

Select a .docx or .doc file or drag a drop below to Edifix the reference list in your Word file.

No file chosen

# What's in there?

- DOC/DOCX translation to internal eXtyles format
- eXtyles citation parsing, styling, linking
- New architecture for Cloud scalability
- Same Edifix API (2.0)
  
- Not using MS Word, not using MS Windows

# Next components for the Cloud

- Batch processing (eXtyles SI)
- Arc journal paragraph recognition
- Full export
- Many eXtyles components to follow
  - Cleanup
  - Auto-Redact
  - And more...

# Next steps

- Edifix will handle DOCX in 2023
- Additional features to follow
- Ultimately, eXtyles will have a full cloud service

# Thank You
